Day 1: The Power of 1% Compounding

Small improvements daily compound into massive results over a college semester.

Focus on your systems rather than obsessing over outcome goals.

Day 2: The 1st Law - Make It Obvious

Implementation intentions: I will study [SUBJECT] at [TIME] in [LOCATION].

Habit stacking: after I finish breakfast, I will read 10 pages of my book.

Day 3: The 2nd Law - Make It Attractive

Temptation bundling: pair an action you need to do with an action you want to do.

Join a peer study culture where your desired behavior is the normal behavior.

Day 4: The 3rd Law - Make It Easy

Reduce friction: prepare your study desk and notebook the night before.

The Two-Minute Rule: when starting a new habit, it should take less than two minutes.

Day 5: The 4th Law - Make It Satisfying

Use immediate rewards to reinforce good actions.

Never miss twice: if you slip up one day, rebound immediately the next day.
