Chapter 1: The Cairo Auction

An ordinary wooden reliquary held a double-encrypted Greek codex.

Dr. Elena Rossi was attacked minutes after acquiring the manuscript.

Chapter 2: The Geometric Key

The cipher relied on Euclid geometry rather than alphabetical substitution.

Each line corresponded to coordinates inside the ancient library catacombs.

Chapter 4: The Brotherhood of Thoth

A centuries-old academic society dedicated to preserving lost knowledge.

The true meaning of the cipher was not treasure, but medicine.
